

Retail Sales Performance Dashboard Business Recommendations Report

Purpose of the Report

This report presents strategic recommendations based on the Retail Sales Performance Dashboard. The recommendations are designed to improve sales performance, customer engagement, regional growth, product strategy, and management reporting.

Recommendation Area	Business Objective
Customer Strategy	Increase retention and customer lifetime value
Sales Performance	Improve sales productivity
Regional Growth	Strengthen underperforming regions
Product Strategy	Optimize category performance
Reporting	Support data-driven decisions

1. Strengthen Customer Retention

Focus marketing campaigns and loyalty initiatives on customers aged 46+, who generated the highest revenue, while introducing strategies to increase engagement among younger customer segments.

2. Improve sales Team Performance

Study the techniques of the highest-performing sales representatives and share successful practices through coaching and training.

3.Enhance Regional Performance

Monitor regional sales regularly, identify growth opportunities in lower-performing regions, and allocate marketing resources strategically.

4. Optimize Product Portfolio

Review lower-performing product categories for promotional opportunities, pricing adjustments, and inventory optimization while maintaining strong-performing categories.

5. Monitor Monthly Sales Trends

Conduct monthly performance reviews to identify unusual sales fluctuations and investigate operational or seasonal factors affecting performance.

6. Expand Dashboard Capabilities

Implementing these recommendations can improve customer retention, increase sales efficiency, strengthen regional performance, optimize product strategy, and enhance management reporting.

Expected Business Impact

Implementing these recommendations can improve customer retention, increase sales efficiency, strengthen regional performance, optimize product strategy, and enhance management reporting.

Conclusion

The recommendations convert dashboard insights into practical business actions that support sustainable growth and informed decision-making.
